Trichoptera Families 23 - Product Information

Title

Lechthaler W. & Stockinger W. (2023): Trichoptera Families – Key to Larvae from Central Europe.
DVD-Edition/Download, Austria

Authors

Lechthaler Wolfgang, Stockinger Wolfram

Price

€ 00,00

This free product offers a versatile application for the identification of last instar larvae of the order Trichoptera (Cl. Insecta) up to family level. About 22 Trichopteran families of Central Europe are documented precisely and numerous illustrations of relevant morphological characters can be queried from an extensive picture database and compared with each other.

More information about all available Eutaxa products, how to order, and samples of images from the picture data base are given under the internet address www.eutaxa.com
